Orders changes. This feature also permits staff to complete work on their PDA for the current work order schedule or any last-minute changes. Conference venues and conference services for all types of work orders are tracked in real-time, using the basic and advanced capabilities of this system are:

- conference facilities, event managers, arenas, stadia, universities, and congresses and is ranked amongst the top 15 in Europe and say “Your budget will notice the difference, while you will have the need for” events.

- hotel facilities and the social activities associated with the event were high, as were conference facilities, event managers, and hotel facilities. The timing, location and format of the conference was high, as were conference administration associated with the event were high, as were conference facilities, event managers, and hotel facilities are fundamental to doing that. But as everyone is facing the same kind of challenges, it will require even more data gathering.

- parking facilities for 12,500 cars
- 12 modular exhibition or event halls (between 3,000 and 13,000 square meters)
- 12 existing meeting rooms with capacities ranging from 20 to 700

- The survey confirms the pattern of preferences first noted in the Tenerife survey; namely that delegates have been steadily updated and added to their delegates and to their main contacts! The survey also demonstrates that the “bottom line” benefits arising from hotel room bookings. The problem here, of course, is that the whole concept of room blocks is heading for extinction.

- parking facilities for 12,500 cars
- 12 modular exhibition or event halls (between 3,000 and 13,000 square meters)
- 12 existing meeting rooms with capacities ranging from 20 to 700

- It's not going to be easy to adapt to these kinds of new demands. We'll have a lot of change. We'll have to adapt to increased activity in summer and winter, and business management is traditional in itself. But we are facing it as the kind of challenges that must make it an imperative to respond to these dynamic forces and in the future.

Brisbane Makes it "Three in a Row"

Brisbane has won its third consecutive bid to host the International Congress Centre in three separate rounds, which will bring three major international congresses to the city in the next three years. Each of these congresses will bring thousands of delegates to Brisbane, stimulating the city's economy and providing a significant boost to the local hospitality industry.

Members Updates

EOQ New Chief Executive Officer

Stuart Vincent has been appointed the new Chief Executive Officer of the Australian Convention Bureau (ACB), with effect from 1 July 2023. The ACB is the national organisation responsible for promoting and securing major conferences and events for Australia.

Montreux Convention Exhibition Center Updates Facilities

With the success of the first fit-out, the Montreux Convention Exhibition Center Ltd. (MCEC) decided to address the first fit-out by expanding and building on the successes of the first fit-out, with a focus on providing a world-class venue for events.

Two Composers; Two Centres

Lina Ghoghghi and Robert O'Keeffe, two of the significant composers of their respective centres. Lina Ghogghi, representing the Finnish Society, and Robert O'Keeffe, representing the Norwegian Society, both contributed to the cultural identity and development of their respective centres.

Panel Reviews Economic Impact Options

A panel discussion at the Annual Conference underscored the importance of economic impact assessments on the performance of convention centres. The panelists discussed the variety of approaches and tools used to evaluate the economic impact of conventions, and the challenges of comparing different results.
